A Call for Authors

The Devices, Circuits, and Systems Series covers electronics devices, circuits, sensors, communications, medical imaging, and other emerging technologies. We are seeking authors to write books for the Series, and we want to hear from you! Please contact the series editor, Dr. Iniewski (kris.iniewski@gmail.com).

About the Series Editor:
Krzysztof (Kris) Iniewski manages R&D at Redlen Technologies, Inc., a start-up company in Vancouver, British Columbia, Canada. Redlen’s revolutionary production process for advanced semiconductor materials enables a new generation of more accurate, all-digital, radiation-based imaging solutions. Dr. Iniewski is also executive director of CMOS Emerging Technologies, Inc., which advocates development of technologies for healthy living and sustainability through innovative engineering solutions. He has held numerous faculty and corporate management positions, and internationally, Kris has published more than 100 research papers and holds 18 patents.
